QATAR / INTERNATIONAL SOURCING & SUPPORT

Top: editorial supply illustration. Other imagery: supplied profile.

Local understanding. Global connections.

Sky Creative Trading & Contracting connects specialist products, project expertise and international sourcing to support customers in Qatar and the wider region.

Our focus spans defense and government requirements, equestrian facilities and padel courts. Construction, industrial supply and retail distribution extend the support we provide across a project or operating business.

THE WAY WE WORK

Understand the requirement

Begin with the customer's scope, specifications, operating environment and priorities.

Connect the right expertise

Bring manufacturers, suppliers and project capabilities together around the brief.

Coordinate delivery

Keep technical suitability, quality, cost and schedule in view from planning to handover.

Three principal areas of focus.

Dedicated capabilities, supported by construction, procurement, logistics and retail networks.

01

Defense & Government

Contracting, procurement, facilities support and industrial supply.

PAGES 04–06

02

Equestrian Facilities

Stable systems, horsewalkers, flooring and daily-care equipment.

PAGES 07–12

03

Padel Courts

Court configuration, supply, installation and after-sales support.

PAGES 13–15

GRAINGER

Authorized reseller in Qatar

Maintenance, repair and operating supplies, supported by product sourcing, purchasing and inventory requirements. Sky Creative's supplied endorsement confirms the reseller relationship through 2026.

Endorsement reproduced on page 23.

The right supply, coordinated.

Source by specification, quantity, destination and required delivery date.

Furniture & interiors

Executive desks, chairs, workstations, public seating, steel furniture, sofas, conference and folding tables, and labour-camp furnishing.

Office & business supplies

Stationery, paper, toner, ink, cleaning products, business machines, printing, reproduction and packing supplies.

IT & electronics

Hardware, software, computer supplies, consumer electronics and appliances, with technical support around the brief.

Industrial & specialist supply

Tools, safety products, medical equipment, heavy equipment, building materials and specialist parts.

SOURCING / VENDOR COORDINATION / INTERNATIONAL LOGISTICS / DELIVERY

Designed around the horse.

Complete stable environments, bringing together specialist systems, practical layouts and the equipment used every day.

Stable systems & stall fronts

Horsewalkers, flooring & care equipment

Röwer & Rüb and specialist agency partners

Equestrian imagery from the supplied company profile.

A stable that works as a whole.

Product configuration imagery from the supplied profile.

Configuration comes first

Choose fronts and doors around stable layout, passage width, horse requirements and design preferences.

Closed or open fronts

Closed fronts suit more controlled separation. Open fronts allow greater interaction and need appropriate circulation space.

Sliding & hinged doors

Sliding doors help preserve narrow passageways. Hinged doors offer a traditional arrangement.

Materials & finishes

Wood choices, coatings and decorative details can be coordinated with the stable design.

Detail & specification

Discuss bar spacing, ventilation, fittings, security and maintenance when selecting a system.

Exercise systems that fit the site.

Standard safety grille

Hot-dip galvanized frame, replaceable grille insert, rubber lamellae and chains.

Rubber safety grille

Flexible two-section perforated rubber mat, suitable for roofed systems.

Rod safety grille

A configuration with 14 flexible plastic rods.

HORSEWALKERS & LUNGING ARENAS

Round or oval. Roofed or open. Configurations can incorporate a lunging arena or central space, according to the facility layout.

A considered surface under every step.

RUBBER FLOORING

Mats, interlocking tiles and roll systems for stable areas. Durable, easy-to-clean options offer resilient footing and help manage slip risk, dust and noise.

EPDM FLOORING

Elastic indoor and outdoor surfacing with weather- and UV-resistant options. Colors and finishes can be selected to suit the facility and intended use.

The details of everyday stable life.

Feeding systems

Corner hayracks, feeding grates and slow-feeding options. Troughs in galvanized steel, aluminum or stainless steel, with tilting and rotating configurations.

Watering systems

Drinking bowls with adjustable flow and optional safety bars. Normal and heated systems, including Suevia 303 and 311 options for cold-climate requirements.

Solariums & drying

Space-saving infrared equipment for warmth and gentle drying after washing or exercise. Select configuration and installation around the stable environment.

Specialist brands. Practical experience.

Our equestrian agency portfolio brings together stable systems, flooring and specialist equipment. Röwer & Rüb supports a complete stable concept, including stalls, doors, windows, horsewalkers and lunging arenas.

03 / PADEL COURTS

Built for the love of the game.

Court supply and installation, from the initial site brief to a venue ready for play.

Standard & panoramic court options

Indoor, outdoor & customized settings

Lighting, flooring & after-sales support

Court imagery from the supplied company profile.

The right court for your venue.

Standard

For clubs, communities and recreational facilities.

Panoramic

Open sightlines and glass enclosures for premium venues.

Indoor

Configured for sports halls, with lighting and ventilation considered.

Customized

Colors, branding and finishes coordinated with the venue.

Specify the complete court.

Coordinate the court system, site conditions and intended level of use.

Playing surface

Padel-specific artificial turf, with sand-filled and non-sand options. Typical stated lifespan: 4–6 years, depending on use and maintenance.

Glass enclosure

Tempered safety glass, typically 10–12 mm. The supplied specification lists 3 m side walls and a 4 m rear enclosure combined with mesh.

Structure & fencing

Galvanized, powder-coated steel; modular construction and electro-welded mesh. Structural design to suit the site and wind conditions.

Lighting

The supplied range lists 8–12 LED projectors and 200–300 lux configurations. Agree lighting around the venue, intended use and applicable requirements.

Delivery & support

Brief and site assessment, court configuration, supply, installation, and maintenance or after-sales requirements.

Construction, from civil works to MEP.

Civil & turnkey construction

Planning, construction, landscaping and external site development, with attention to workmanship, cost and schedule.

Mechanical, electrical & plumbing

Coordinated building services, supported by tools, parts, safety products and related supplies.

Building materials

Steel, lumber, paint, PVC and materials from below-ground works through finishing, selected against technical, cost and delivery requirements.

Facilities & operational support

HVAC, shade structures, guard booths, interiors, maintenance, warehouse layout and vehicle-maintenance support.

Connecting brands with everyday life.

Conceptual retail destination; editorial illustration.

For retailers

Wholesale supply, stock coordination, shelf placement and logistics around product availability.

For brands

Representation and distribution across household, lifestyle, toys and specialist product categories.

For shoppers

SooCool brings the retail offer online at soocool.store.
